

满天都是小星星

一闪一闪亮晶晶

好像许多小眼睛

挂在天上放光明

满天都是小星星

一闪一闪亮晶晶

How I wonder what you are!

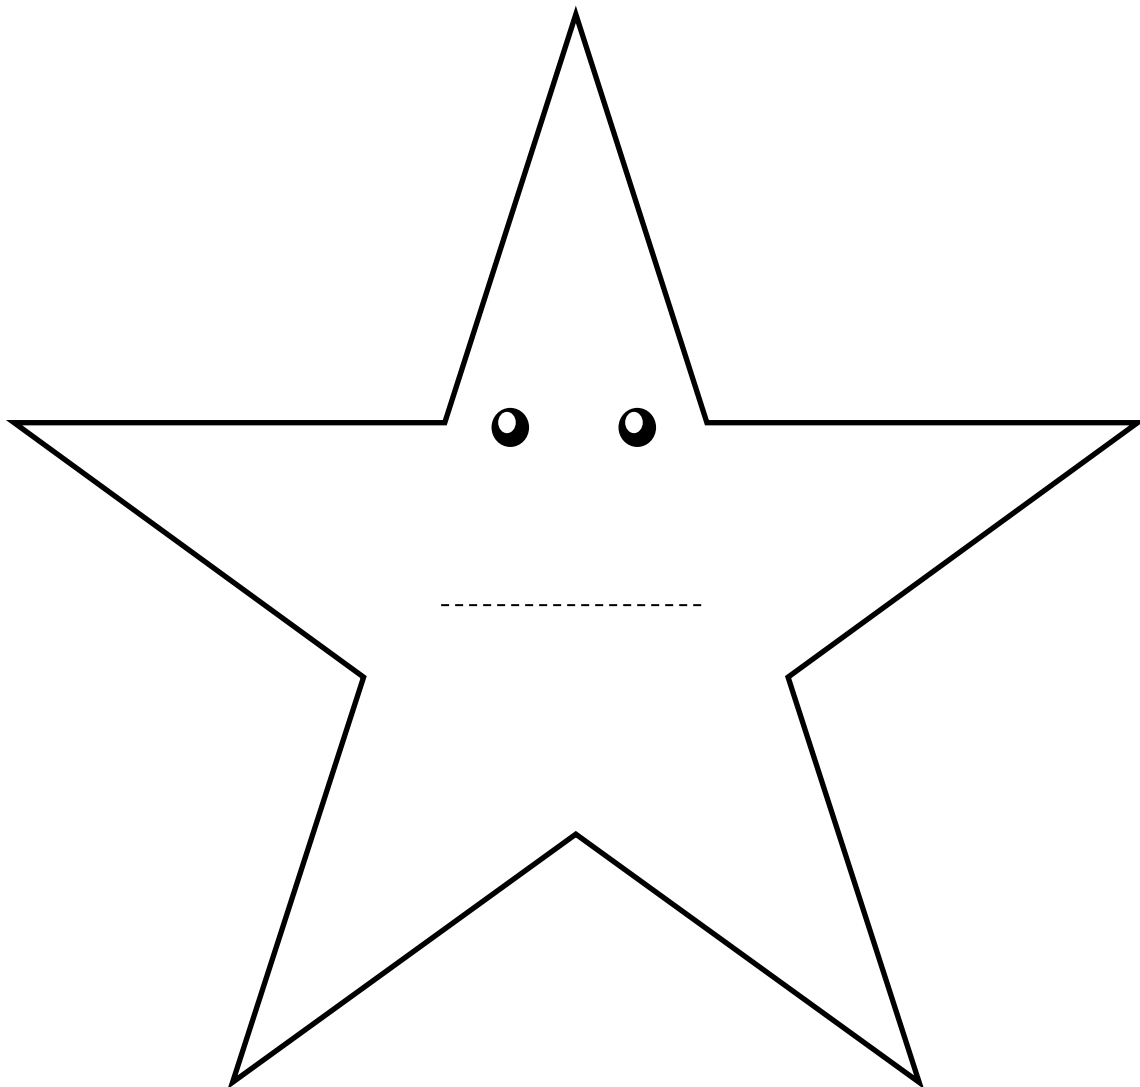

Twinkle, twinkle, little star

Like a diamond in the sky.

Up above the world so high,

How I wonder what you are!

Twinkle, twinkle, little star

Instructions:

1. Decorate the booklet as you wish (you can add more stars or a globe—anything!)
2. Fold along the solid horizontal line.
3. Fold along the solid vertical line. (Leaving the lyrics on the outside of the booklet!)
4. Unfold once and fold along the solid vertical line again, inverting the fold.
5. Unfold completely and pinch along the crease at the dotted line (halves the dotted line).
6. Cut a slit along the dotted line with scissors.
7. Fold away from the slit to make two triangles. Turn over and crease in other direction too.
8. Unfold and fold back on the horizontal line.
9. Use a finger to push open the slit from behind. It should start looking like a beak, now.
10. Fold back on the vertical line so the beak opens fully and creases squarely.
11. Glue down the halves so it only opens in two halves.

Awesome! You have a little singing star!
